EXPERIENCE

SourceFuse Technologies, Mohali — Senior *Engineer WebApps*

4th September 2017 - PRESENT

Daffodil Software Limited, Hisar — *Associate IT*

10th November 2014 - 1st September 2017

EDUCATION

B.Tech*(CSE)*

2010 - 2014

Kendriya Vidyalaya, Hisar — *12th(CBSE)*

2010

Kendriya Vidyalaya, Hisar — *10th(CBSE)*

2008

PROJECTS

Pubnub Moderation Tool

https://pubnub.com

Technologies: ReactJS, Material UI

Team Size: 7

Responsibility: Architecture, Somewhat development, Code Reviews and Code Quality Analysis.

Duration: March 2021 – Present

Certifications

AWS Certified Developer – Associate

HIPAA Awareness for Business Associates

SKILLS

NodeJs, ReactJs, AWS Lambda, SQS, SNS, S3, Serverless, CloudWatch, EmberJs, PostgreSQL, Javascript, ElasticSearch, Redis, Stripe, PubNub

PROFESSIONAL ACHIEVEMENTS

Best Project Award for **ID Plans**

Got rewarded for completing a big feature named "Group Health" and "MAS" in **Relay Solutions** before the deadline.

Relay Solutions

https://relaysolutions.com

Technologies: NodeJS, PostgreSQL, AWS, ElasticSearch

Team Size: 27

Responsibility: Development and Code Quality Analysis.

Duration: September 2017 - Present

Surecave

https://www.surecave.com

Surecave is a rental site that offers a large selection of trusted apartments and houses for rent. A landlord can lend their property, seekers/tenants can search the properties for rent.

Technologies: ReactJS, Firebase, Material-UI, ElasticSearch

Team Size: 5

Responsibility: Development.

Open Face Chinese Poker

https://play.google.com/store/apps/details?id=com.daysofpoker

Chinese poker is a card game based on poker hand rankings.

Technologies: ReactNative

Team Size: 9

Responsibility: I've initially made the drag and drop functionality for the game.

Postopia

https://www.postopia.com

Postopia is a web application, leaps forward in both social media sharing and the democratization of fame.

Technologies: ReactJS, React Bootstrap, React-Router, Redux

Team Size: 4

Responsibility: I've initially made the drag and drop functionality for the game.

ID Plans

https://www.idplans.com

This website is developed for the property management company

involved in designing the architecture of buildings. I worked on creating UI, Design tools, and backend web services for the same. The main challenge was to design it in such a way that the user can easily draw shapes and manipulate them which involves moving around, drawing curves, rotating. Also, it facilitates to use same drawn structure to plan different sections like electricity, gas, fire, dumpsters, dimensions, etc. The key feature is easy to use and flexible to manipulate. Different tools are provided for the same that include: Line tool, Select tool, Vertex tool, different Path pattern tools, Circle tool, Rectangle tool, Fill tool, Line Measurement Tool, etc.

Technologies: EmberJS, NodeJs, DynamoDB, SVG, D3

Team Size: 15

Responsibility: Development of the tools.

MHI(My Home Info)

It is a website similar to ID Plans, which deals with a single company that designs the architecture of their properties' buildings. It was the same as ID Plans with a different UI.

Technologies: EmberJS, NodeJs, DynamoDB, SVG, D3

Team Size: 1

Responsibility: Project Management cum Development.
